A Law Center is now part of our infrastructure so as to counter any opposition in bringing Christian Symbols to the Public Square.

Our Articles of Incorporation now includes:

"To encourage the open display and equal treatment of Christian symbols in the public arena and to take legal action in pursuit of this purpose when necessary."

Our first action as a Law Center will be to petition the White House to put up a Nativity Scene on their White House Lawn where a 40 foot Hanukkah Menorah is displayed every December with its attendant ceremony participated in by a Jewish state official, confirming our nation's errant union of synagogue and state. At the same time, the lie, "separation of Church and state, is affirmed. Our plan is to put a stop to this double standard.

If we are denied our request by the White House then we will litigate against the Jewish sponsors of the Hanukkah Menorah, Chabad House, so as to insure equal treatment.
